## Conversion Kit® for Iveco Trakker AD 380 T42 WH Light Truck

### THE COMPLETE AND SCALABLE SOLUTION

Immersive Technologies provides a custom solution designed to train and develop your mine equipment operators using world leading technologies. This maximizes both effectiveness and throughput of the training process by blending eLearning, Instructor Led Training, Medium and High Fidelity Simulators for the most cost effective solution.

Coupled with this approach are professional integration services, tools and technologies which accurately assess and reduce operator risk. This enables Immersive Technologies to partner with our customers to drive quantifiable improvements in operational metrics such as safety, cost and profitability.

### Increase operational safety and productivity while reducing your maintenance spend

Immersive Technologies' Conversion Kit development for the Iveco Trakker AD 380 T42 WH Light Truck provides the ultimate in training realism for mines focused on increasing operator safety, improving productivity and reducing levels of unscheduled maintenance.

Original Equipment Manufacturer and industry endorsed Iveco operating procedures are tightly integrated with an extensive learning system within the Advanced Equipment Simulators. This system has been repeatedly demonstrated via evidence collected from within mining operations to provide rapid, correct and effective learning and assessment.

With mining equipment becoming increasingly technically sophisticated, the level of information, experience and organizational competencies required to accurately simulate these machines also increases. Through Immersive Technologies' industry experience, you can be assured your training solution will be the only accurate and true representation of the real machine available.

*Machine dynamics faithfully reproduced to give maximum realism*

*Accurate instrumentation and controls provide a safe and highly realistic training environment*

## Expect Results

# T200 Conversion Kit for Iveco Trakker AD 380 T42 WH Light Truck

Immersive Technologies' T200 Conversion Kit provides the ultimate in training realism for mines focused on increasing operator safety, improving productivity and reducing levels of unscheduled maintenance.

The Conversion Kit includes a complete replica cab of the Iveco Trakker AD 380 T42 WH Light Truck, with fully functional controls and instrumentation sourced directly from OEM. These include genuine Steering Wheel, in-dash display providing information to operators on a wide range of vital machine functions. Additionally the Conversion Kit features OEM pedals, manual transmission gear selector and hoist control lever.

Fully functional in-dash display

Genuine control switches

Genuine hoist lever

Genuine transmission gear selector

Throttle, brake and clutch pedals matching OEM machine

Simulated radio module and special view controls

Conversion Kit: T200

Released: May 2019

*NB: Seat & Base not included.*

## Innovative Simulator Training Software

Immersive Technologies' SimControl software includes a range of specific Iveco light truck operator errors for recording and measuring incorrect operator behaviours. In addition, the SimControl software includes Iveco light truck events which allow a trainer to initiate machine faults or incidents in order to train and assess operators in responding appropriately. This combination of errors and events provide a mechanism to ensure operators are working at maximum efficiency while minimizing equipment damage. It also ensures operators are able to avoid or respond correctly to hazards and potentially life threatening scenarios.

**SimControl**  
IMMERSIVE TECHNOLOGIES

Operator training events include:

- Engine Fire
- Whiteout weather
- Service brake failure

Operator errors and events include a focus on the following areas:

- Site Safety Procedures
- Traffic Awareness
- Manual Transmission Usage
- Fuel Efficiency
- Hazard Avoidance
- Operator Productivity
- Minimizing Unscheduled Maintenance

CONVERSION KIT® COMPATIBLE WITH

**PRO4 IM360**

LX6, LX3, AES Lite

## Transforming data to information

SimMetrics™ is a powerful reporting system that helps you review, measure and visualize your simulation data. With an intuitive click-and-drag user interface, you don't need to be a programmer to quickly generate detailed reports on the results of your training.

## Support where and when you need it

Our customers receive a range of comprehensive support services:

- 24-hour phone support
- Rapid emergency visits
- Scheduled on-site service
- Regular maintenance support
- Hardware and software upgrades
- Extended parts warranty
- Best practice training and community networking

## Training Systems Integration

Immersive Technologies offers on-site and customized consultation programs to assist mines to rapidly integrate their simulator technology, implement training program best practices and achieve maximum return on investment. Immersive Technologies application specialists work closely with you to develop a customized Iveco light truck training curriculum, including the development of detailed performance based benchmarks and reporting systems tailored to your site's specific objectives.

## Managed Services

Outsource a portion or all of your operator training program and gain access to specialist support across a broad range of capabilities. Managed Services staff are embedded within Immersive's global support network and have direct access to exclusive intellectual property for mine operator training. Whether you are a small or large operation the solution can be scaled, giving you access to a world class support for a fraction of hiring, training and managing these teams on your own.
